**Subject:** ETT review  
**Attachments:** AO update w comments per Jan 2014 ETT.xlsx; 1QTR2014 Comments.xlsx; quarterly priority letter.docx

For our meeting this week I reviewed the latest ETT report and added some comments /questions to facilitate our discussions this week (See "1QTR2014 Comments"). I also reviewed and updated the status of systems with AOs in place (See "AO update w comments"). Hope we can discuss on Thurs.

I think we should discuss the format for the ETT and AO reporting so we can come up with something that's easily updated to minimize the backtracking (and questions from EPA) from quarter to quarter.

Also, I've attached a draft form letter that EPA could send to each system with ETT>11 each quarter. It would just be a reminder to the systems and hopefully serve as an encouragement to work closely and cooperatively with KDHE to get AOs in place where needed. Please take a look and hopefully we'll have some time to discuss this week as well.

Thanks  
Scott
